***SERVING THE SOCIETY THROUGH  
PROTECTING THE ENVIRONMENT***

## ***PARYAVARAN LABS (INDIA) LTD***

Paryavaran Labs (India) Ltd was founded in the year 1993 with a view to contribute to the national endeavor of Economic growth without disrupting the fragile balance between Environment and Development initiatives and to promote state-of-the-art Environmental Consultancy Services in India. The setting up of such an institution of national importance was visualized and given a shape by a small team of energetic and enthusiastic environmental scientists with focused efforts and relentless pursuit to reach the desired goal. Paryavaran Labs (India) Ltd India is a class apart as an Environment Consultancy, We provide professional Environmental services to both the Public and the Private Sectors.

We are having well established in house Laboratory Accredited by MOEF (Gazette Order Serial. No.2644 dated 26<sup>th</sup> Nov. 2013 and valid up to Nov. 2018); ISO 9001:2008; OHSAS 18001:2007; NABET (In process). We realize the importance of growth and technology and hence make sure that our infrastructure is outfitted with the same. Hence, after rigorous market surveys, we select relevant technologies that accelerate the functioning of our organization.

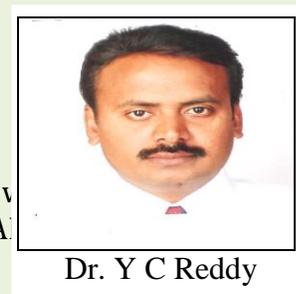

### ***Director's Desk***

Paryavaran Labs boasts of a winning team in the field of environmental activities. A unique combination of young and experienced workforce, we have demonstrated our capabilities to take up and complete to the best satisfaction of our clients, challenging projects, helping us grow at a rate faster than any other contemporary firm in our field in India.

A modern R&D Lab with all the advanced sampling and sample preservation infrastructure. The R&D is equipped with instruments such as visible and UV spectrophotometers, Atomic Absorption Spectrophotometers, BOD Incubator, sound level meters, Respirable dust samplers, stack monitoring kits, Electronic Digital balance etc. The field sampling team has also been manned with portable pH, Conductivity, etc. meters, Dragger Tube pumps, noise and Carbon monoxide meters for immediate on-site monitoring and report generation.

Paryavaran Labs boasts of a well-stocked Model library with water and air dispersion and noise attenuation models. The models such as ISCST32, CTDMA, CALINE, Valley, Screen, Breeze, etc are inter-calibrated to share source and output files to minimize programming inputs and enhance graphical representation of results.

The R&D infrastructure goes hand-in-hand in Analysis & design Effluent treatment plants and Pollution control equipments which are robust by design and efficient in operation.

Paryavaran Labs recognized as one of the leading service providers holding specialization in rendering consultancy for Consent to Establish/NOC & Consent to Operate. In order to avoid any kind of environmental hazards, Indian government set the norms that every building must have NOC before their actual commencement. These offered services helps to get all legal approval under the air and water act from the relevant government agencies.

## Paryavaran Labs Profile
